OVERVIEW

Digitize your check payment process

Watch a short video to learn how the Deluxe Payment Exchange, a true digital payment solution, can help you save time and money when it comes to sending and receiving payments.

All the benefits of a paper check, all in one fast, easy, low-cost digital solution.

The only paper check-based system that delivers payments digitally

Make payments anytime, from anywhere. Recipients can receive payments however they choose. Deluxe Payment Exchange gives both sender and receiver more payment flexibility than ever before while eliminating the need for the sharing of sensitive data.

Additional benefits of eChecks

- **Flexible:** Pay from the office, from home, from anywhere in just a few clicks or taps. Recipients can then choose how to receive each payment (print from home and deposit in branch or by using mobile deposit; direct deposit or deposit to PayPal.)
- **Secure:** All you need to send a payment through Deluxe Payment Exchange is an email address. No email address? No problem! Our Print+Mail solution will create, print and mail high security checks on your behalf.
- **Simple:** Deluxe Payment Exchange integrates seamlessly into most current AP processes, giving you various methods for creating payments including through the platform, by importing .CSV files, utilizing our QuickBooks integration or using an API for high volumes of payments.
- **Versatile:** Whether you're an enterprise customer, financial institution, small business or non-profit, Deluxe Payment Exchange has the versatility to benefit *any* business of any size.

FEATURES & BENEFITS

Process payments at the speed of email

Send payments in seconds

Pay by check — over email. All the benefits of paper checks, only faster.

Take control of your cash flow

Hold on to cash until the day a payment is due, without building in time for the mail to be delivered.

Reduce expenses

No more buying check stock, printer ink, envelopes or postage. No more time spent stuffing envelopes. No more trips to the post office or rush courier fees.

Help minimize risk

Get our patented security features, combined with a delivery method that minimizes contact points.

KEY BENEFITS

Why an eCheck payment through Deluxe Payment Exchange is better for you

Payments delivered in seconds, not days

Imagine a streamlined payment process that delivers check payments to your recipients as quickly as you can send an email — a digital solution with no steep learning curve.

Created with security in mind

The Deluxe Payment Exchange portal was built with the busy small business owner in mind. The system allows you to write a single check, set up a check run, import a check batch and much more, with just a few clicks of a mouse.

Integrates flawlessly with QuickBooks® and other accounting

No double entries. No additional investment. No changes to your current AP process. Simply select the free Deluxe Payment Exchange add-on for QuickBooks to get started.

Streamline time-consuming, expensive processes

While paper checks are among the most widely accepted payment methods currently available, the process of loading check stock into a printer, printing, signing, stuffing, stamping and mailing them is costly and inefficient.

HOW IT WORKS

It’s easier and faster to create and send payments with eChecks

Link your Deluxe Payment Exchange and bank accounts

Create an account and link bank account to the platform.

Prepare real time payments

Enter payment details, remittance data and attachments directly into the platform, then upload a file, or, if using an eCheck, use the QuickBooks® connection. Select eCheck or Print+Mail for Deluxe Payment Exchange to send out a printed check.

Recipient is ready to accept their payment

If using an eCheck, the recipient is notified of payment via email, views remittance data and chooses their deposit method, either electronically or printed. If using Print+Mail, the recipient receives their check payment with remittance data in the mail.

PRICING CALCULATOR

A payment solution for every budget

Pick a package that’s right for your business.

eChecks	50	100	250	500	1000
Price	$35	$64	$150	$290	$570
Each	70¢	64¢	60¢	58¢	57¢

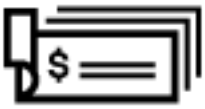

Need more than 5000 eChecks at a time? To request a custom quote call 800.631.1808

See how much you could save

It’s one thing to say we can save you money. But we can show you numbers. Enter your data into the Deluxe Payment Exchange Savings Calculator, and we’ll give you an estimate of your yearly savings potential.*

SAVINGS CALCULATOR

Enter both values below to see how much money you can save with Deluxe Payment Exchange.

How many checks do you currently send each month?

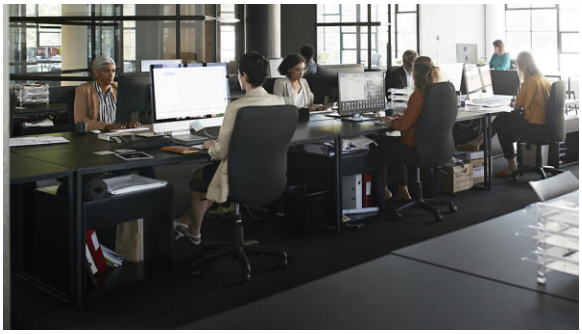

What % of check recipients do you have email addresses for?
Submit

* Amounts shown are for estimation purposes only and are not guaranteed.

MORE SOLUTIONS

A digital payment solution for any size business

1. Enterprise

Enterprise

Reduce costs: Utilizing digital payments and Print+Mail allows you to cut down on AP resources

Improve customer experience: Customers get paid faster and have their choice of deposit options

Optimize cash flow: Ability to send payments instantly lets you have tighter control of finances

2. Financial Institution

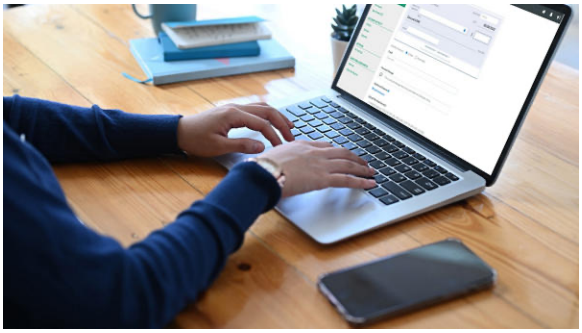

Financial Institution

Generate fee revenue: Make a profit by offering a payment platform that fits an unmet market need

Provide digital solution to customers: Give them what they need to seamlessly transition to a digital payment method

Reduce costs: With fewer AP resources needed, digital payments and our Print+Mail option provide you with a lower cost alternative to in-house processing

3. Small Business & Nonprofit

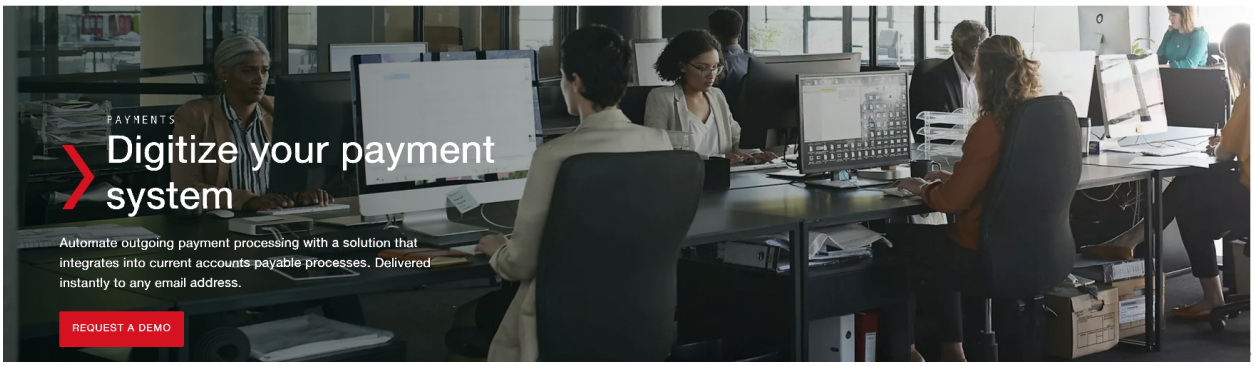

Small Business & Nonprofit

Make payments quickly: Send payments instantly via digital delivery or same day using Print+Mail

Save time & money: Digital payments and Print+Mail are faster, more affordable than printing and mailing your payments

Better manage cash flow: Send checks instantly, at the last minute and keep tighter control of your finances

OVERVIEW

Fast payments from a trusted partner

With Deluxe Payment Exchange, you can optimize your accounts payables processes with fast payments made when you need them. And for your payees, eCheck payments from Deluxe Payment Exchange can be received instantly. All payees need is an email address. If they don't have an email address, we have the answer for that too. Deluxe can print and mail live check requests for you, going out as quickly as the same day. This process is brought to you by Deluxe, a company with 100-plus years of payment technology innovation.

FEATURES & BENEFITS

Send digital payments quickly and securely

Utilize Deluxe Payment Exchange to go digital with zero disruptions to current AP processes.

Send safely and securely

Digital payments help reduce the real risk of check fraud by mail, with 75% fewer touch points and allows the payer to always know where the payment is in the process.

Improve operational efficiency

Stop worrying if your check will get to your payee, or when they will cash it. Digital disbursements allow for more precise delivery windows, include remittance data, and can be reissued without bank involvement.

Save money

There’s a lot of time and money put into processing traditional checks. Payments through Deluxe Payment Exchange reduce the manual steps of a check run and the expense of postage, printing and labor.

Offer better choices

Deluxe Payment Exchange gives people the choice on how they want to receive a digital payment - print or deposit like a traditional check, or use Deposit Services to deposit to a bank account, debit card or through PayPal.

Facts

Stick to the facts

Top pain points for AP departments: invoice error management, handling vendor inquiries about payments and supporting multiple payment types.

KEY BENEFITS

Discover more benefits of Deluxe Payment Exchange

Full-featured API

Whether your systems are proprietary or off-the-shelf, our API allows enterprise companies to initiate accounts, send checks and perform many other system functions. Security is foremost, so Deluxe Payment Exchange API is SSL-only.

Integration support

Our professional team can integrate the API into your existing system, or we can supply the API for you to implement yourself. Whichever you choose, our integration experts are here to help.

Payee choice

No more lost payments or wasted labor. Deluxe Payment Exchange pays suppliers and customers in ways they want — either printed check or with digital payments. Digital payments can be printed as a check, direct deposited, or deposited to debit card or PayPal. Print+Mail combines the speed of electronic payments with the experience of receiving a traditional, high-security check.

No vendor setup required

Don’t worry about spending time or energy setting up a new process. Paying with echecks is as easy as sending an email. It’s also a great solution for one-time or infrequent payments.

HOW IT WORKS

Create and send digital payments faster and easier

Connect

The payer links their bank account to the platform (directly or through API) and enters payment details. After that, the payer selects a disbursement method — either via eCheck or Print+Mail.

Send by eCheck or Print+Mail

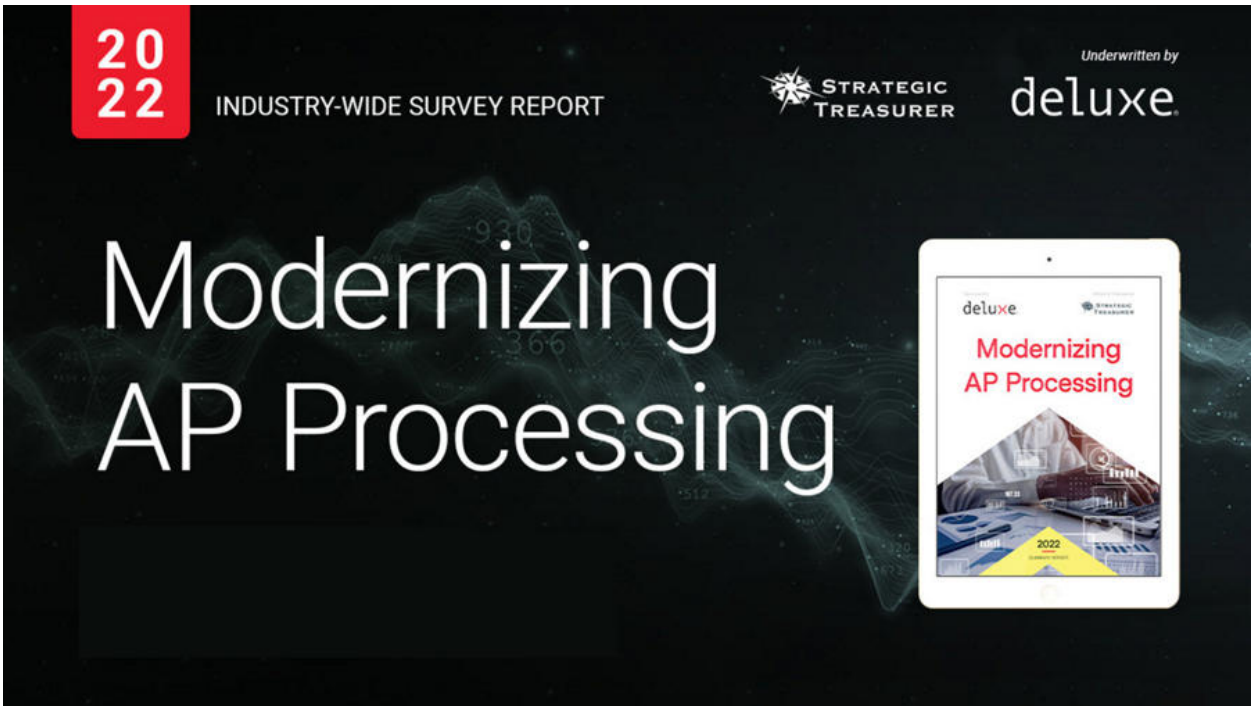

If sending by eCheck, Deluxe Payment Exchange digitally sends the payment and remittance notification to the payee by email. If by Print+Mail, the payment is printed on high-security check stock and mailed the same day by Deluxe.

Receive

If sent by eCheck, the payee is notified of payment via email, views remittance data and chooses their deposit method. If they chose Print+Mail, the payee receives their check payment with remittance data in the mail.

SURVEY RESULTS

2022 Strategic Treasurer Modernizing AP Processing Survey

For the third year in a row, Strategic Treasurer and Deluxe have partnered to survey more than 200 companies and financial institutions across the world to identify and analyze accounts payable (AP) insights and emerging trends. Strategic Treasurer Founder and Managing Partner Craig Jeffery, along with Deluxe's Executive Director of Digital Payments Solutions Chris Clausen, share the executive summary, key finding analysis and survey demographics in the 2022 Modernizing AP Processing Survey Report.

Case Study

Financial Institution Powers Fintech Clients with Deluxe Payment Exchange

Financial Institutions: Optimize Payments, Deluxe Payment Exchange, Streamline Operations

Overview

Fintech partner bank of record Lincoln Savings Bank uses the Deluxe Payment Exchange platform to send high-volume digital check payments on behalf of their fintech clients.

Solutions Used

- Deluxe Payment Exchange

Founded in 1902, Lincoln Savings Bank (LSB) is dedicated to being a progressive, relevant bank that offers its customers the best service possible through convenient, innovative technology. With a goal to merge traditional payment systems with new and emerging technologies, Lincoln

Savings Bank added a fintech-venture (LSBX) in 2014 and began partnering with several financial technology companies.

The Challenge

There are two major drawbacks to the volume of check payments in the market that businesses cite: cost and fraud. Cost is the largest deterrent for traditional check payments, with 20 percent of businesses reporting the cost of a single check to be more than $5.00.

To better meet the high-volume payment needs of their fintech customers, LSB wanted to streamline their manual check processes by moving to a digital payment platform to reduce cost, save time and elevate their customer relationships.

Mike McCrary, LSB's First Vice President, Relationship Manager, said it's been important for the bank to find a payments solution that reduces the friction of requiring an end user to enter information to get money they're owed. This payee friction is one of the main reasons that prevent businesses from digitizing their payments. By only requiring a valid email address, Deluxe Payment Exchange filled this need, and the payee doesn't need to share his or her financial information with the payer.

> The Deluxe name has been around for a long time. Everybody's heard of it and so there's a trust factor that's built into it. If someone receives one of these emails and has a question. They call the number on it and they're talking directly to someone at Deluxe who can help. The trust is continually built back into the process.
>
> - Mike McCrary

The Solution

As part of their dedication to innovation, LSB recognized the continued shift to digitalization and began using the Deluxe Payment Exchange platform. "We want what's going to work the best now and into the future. When we chose Deluxe, it was a very easy choice because we felt it was the best for issuing large quantities of checks in an efficient and cost-effective way," says LSBX Operations Manager Brooke Dahlquist. "We really loved its flexibility. It works with our Positive Pay system and there wasn't a strict file layout when we needed to import checks. We could set what we wanted."

By shifting to a digital payment platform, LSB eliminates the cost of shipping and mailing traditional checks, while also improving their client relationships by offering them more deposit options. Some clients find this digital payment method "too easy to be true," which is where McCrary says the company's 100-year history in the industry and trusted name comes in.

"The Deluxe name has been around for a long time. Everybody's heard of it and so there's a trust factor that's built into it," adds McCrary. "If someone receives one of these emails and has a

question. They call the number on it and they're talking directly to someone at Deluxe who can help. The trust is continually built back into the process."

In addition to the flexibility that Deluxe Payment Exchange offers, LSB didn't need to invest hours of onboarding for its employees to learn how to use the system or spend development dollars to set up the platform. "It was very simple. Even if employees don't get into it every day, it's very simple for them to go back in and know how to navigate and upload a file or create an individual check — so that was really nice about choosing Deluxe," says Dahlquist.

> What would have taken us days, if not weeks using our old way, now takes us minutes.
>
> - Brooke Dahlquist

The Results

When onboarding clients, Dahlquist says the process was equally simple: "Our fintech clients were the ones that were ready to use electronic payments. It was exciting for everyone and it wasn't difficult to get them on board with it at all."

On average, it takes approximately 42 seconds to prepare one physical check. With a valid email address, the payer can deliver an eCheck to the payee in seconds and avoids costly mailing fees or risk of physical fraud interception. Dahlquist says implementing Deluxe Payment Exchange has significantly reduced the amount of time the bank spends on check issuance: "What would have taken us days, if not weeks using our old way, now takes us minutes. All you do is add a few columns to a spreadsheet, upload it and then we upload it to our Positive Pay system."

McCrary says each of Lincoln Savings Bank's fintech partners have seen an increase in deposits since implementing the Deluxe Payment Exchange platform. In fact, since using Deluxe Payment Exchange, almost half of the eChecks are cashed the same day Lincoln Savings Bank sends them. "The speed at which they're going through is really unbelievable," says Dahlquist.

OVERVIEW

Support customers and help boost revenue with a digital payment solution

Increasingly, the need for liquidity has become important to many customers, and they're looking for financial institutions that can provide it to them. A cost-effective way to increase customer satisfaction while providing a new revenue stream for your bank or credit union is to offer smart payment solutions. Deluxe Payment Exchange empowers your financial institution to:

- Generate top line revenue
- Expand customer base and increase retention
- Uncover additional cross sell opportunities
- Solve customer check disbursement pain points

FEATURES & BENEFITS

A digital payment solution your customers will appreciate

Easy integration

Deluxe Payment Exchange integrates easily with existing AP software, with no required changes to current processes or software to download.

Business-to-business payment support

We make bookkeeping easier by conveniently sending remittance data with each payment to both consumers and businesses.

Multiple deposit options

Payees can choose to print and deposit payment as a paper check, direct deposit, deposit to a debit card, or use PayPal while the payment always disburses and settles as a check.

Highly secure

Positive Pay, Check Verification and EzShield Premium Check Protection are all ways Deluxe Payment Exchange offers your customers protection from fraud.

Facts

Stick to the facts

Deluxe Payment Exchange has more than 3 million unique payees, both consumers and businesses.

KEY BENEFITS

Shared success is success squared

Engage with our Advisory Services team to analyze your current customer base and partner to build a plan for success.

Prove value

We'll identify opportunities within your existing customer base, from heavy check users to those using outsourced solutions to support business case development.

Formulate a plan

Based on a comprehensive analysis, we'll show how a true digital solution can benefit target businesses, while enhancing security and optimizing working capital.

Realize results

Through training, sales tools, marketing materials and professional support, we'll make the process easy to understand for your bank staff and customers.

HOW IT WORKS

With Deluxe Payment Exchange, it’s easier and faster to create and send payments

Connect

The payer links their bank account to the platform (directly or through API) and enters payment details. After that, the payer selects a disbursement method — either via eCheck or Print+Mail.

Send by eCheck or Print+Mail

If sending by eCheck, Deluxe Payment Exchange digitally sends the payment and remittance notification to the payee by email. If by Print+Mail, the payment is printed on high-security check stock and mailed the same day by Deluxe.

Receive

If sent by eCheck, the payee is notified of payment via email, views remittance data and chooses their deposit method. If they chose Print+Mail, the payee receives their check payment with remittance data in the mail.
