How do eChecks work?

Create & send

Log in to enter payment details and your recipient's email address, and click "Send". You can also integrate with QuickBooks to send checks.

Receive & retrieve

After receiving a link in their email, recipients retrieve their checks from our secure online portal.

Print the check

Using a standard printer and white paper, the recipient prints the check within 90 days of receipt.

Deposit the check

An eCheck is deposited just like any other check - at their bank, ATM, or via remote deposit. When available, they can also use direct deposit, or deposit to debit card or PayPal.

Thank you!
